

FINANCIAL REPORT

2019-2020

MORAVIAN COLLEGE

Management Discussion

In August of 2019, Moravian College welcomed 538 new students to campus, which included 428 first time freshmen and 110 transfer students, 29 of which were international. The academic quality of the incoming class continues to improve, the new students on campus averaged a GPA of 3.55. The highest Sophomore retention rate was achieved this academic year, as 82.67% of the previous first year class returned to campus.

The College saw continued success in the Graduate division, as enrollment expectations were exceeded this year. In our Rehabilitation Science programs, a second cohort for Speech Pathology, Occupational Therapy, and Master's in Athletic Training were welcomed to campus this Summer. The Doctorate of Physical Therapy program, which is preparing for its first cohort of students in the Summer of 2021 is already being nationally recognized. The Academy of Pediatric Physical Therapy awarded Moravian College with a grant in the Fall Semester. This is a testament to our faculty's dedication to educating our future health care professionals in a revolutionary way.

The 2019/20 Fiscal Year was truly extraordinary, as the weight of the COVID-19 pandemic swept the globe. Despite major disruption on campus, including sending all residential students home and transitioning all classes to an online modality, the College was able to balance the budget, and actually complete the year with a modest surplus. This was achieved through a combination of cost containment and federal government stimulus support. In addition, the CARES Act provided an opportunity to provide grants to certain students who demonstrated need and whose lives were disrupted by the COVID-19 virus. In addition, Moravian College provided donations of supplies and time to support hospitals and first responders in our community.

Several capital projects were completed on campus in the Fall of 2019. In Athletics, home and visiting team locker rooms, as well as athletic offices and lounge spaces were added, and a Mondo track was also installed in the Breidegam Field House. To support Academic Affairs, the final 10,000 square feet of the Sports Medicine and Rehabilitation Center (SMRC) was fit out, completing classrooms, offices, a new audiology booth and conference spaces and the remainder of the windows on Comenius Hall were replaced. On the Hurd Campus, improvements include the replacement of the rooftop of Brethren's House as well as significant upgrades to the HVAC system. And for Student Life, the former bookstore in the lower level of the HUB was transformed into student meeting rooms and Student Life offices.

The market value of all investments was \$113 million, of which \$112 million represents the endowment. Over the past 5 years the fund has received gifts of \$17.7 million and has provided \$31 million in support for operations and capital projects. Investment returns for the one, three and five year periods were 0.3%, 4.7%, and 4.7%, respectively. The endowment spending rate for 2019/2020 remained a conservative 4.5% producing approximately \$4.8 million, of which \$1.9 million was used for College and Seminary financial aid. As of June 30, 2020, the College and Seminary endowment investment portfolio, which includes funds held in trust by others and long-term campaign investments, consisted of 52.6% domestic and international equity, 19.4% fixed income, 1.8% real estate and natural resources, 25.2% alternative assets and 1% cash.

Financial Review

Statement of Financial Position

Total assets declined \$2 million year over year, which was primarily driven by a decrease in investment market values, and slightly offset by the change in total current assets. The consolidated net assets at fiscal year-end decreased slightly 0.27%, or \$530 thousand. Increases in current liabilities were a result of increased accrued expenses over the prior year and an increase in deferred revenue due to increased summer class sizes. These were offset by decreases in noncurrent liabilities, as loans were paid off.

Statement of Activities

In consolidation, operating revenues increased by \$3 million from the prior year. An increase in private gifts and grants income was the largest contributor. The CARES Act Higher Education Emergency Relief Fund (HEERF), also provided an additional \$2 million in revenue to assist the institution with the costs associated with campus disruption due to the COVID-19 pandemic.

On March 20th, in response to the COVID-19 pandemic, and for the safety of the students, faculty and staff, the Governor's Office required all residential campuses to send students home and complete the semester using an online modality. This significant shift in business operations required the renegotiation of several contracts and a conscious effort to control all costs. The response resulted in reduced costs by nearly \$5 million from the prior year. Reductions were realized in all functional expense categories, except Other Expenses.

Overall net assets decreased by \$530 thousand. Net assets from operating activity increased by \$5.3 million, largely due to decreased expenses when the College transitioned to a 100% online modality, with students learning from home for the last quarter. This increase in net assets was offset by the nonoperating activity which saw a large decrease of \$5.8 million, mostly attributable to unrealized losses on investments. Investment markets in general were down sharply as of June 30 as a result of the economic response to the pandemic. In addition, a low interest rate environment had a negative effect on the market value of interest rate swap agreements.

Statement of Cash Flows

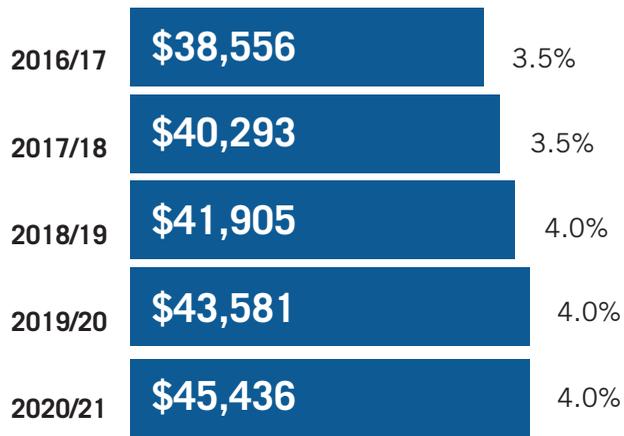

The primary purpose of the statement of cash flows is to provide relevant information about the cash receipts and cash payments of the consolidated enterprise. The information provided in the statement of cash flows, used with the related disclosures and information in the other financial statements, should aid investors, creditors and others to (1) assess the College's ability to generate positive future net cash flows; (2) assess the ability to meet current obligations and needs for external financing; (3) assess the reason for differences between the change in net assets and associate cash receipts and payments; and, finally, (4) assess the effects on the College's financial position of both its cash and non-cash investing and financing transactions during the year.

Operating activities: During the 2019/20 fiscal year, the consolidated operating activities of the College contributed \$11.7 million in cash. This figure is calculated based on the adjustments to the change in total net assets for non-cash operating items and the changes in certain asset and liability accounts. Net realized and unrealized investment gains and depreciation are key factors.

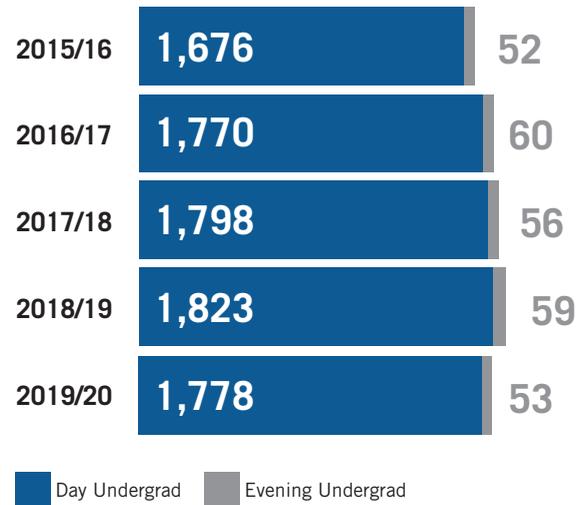

Investing activities: Net cash used by investing activities was \$7.4 million related to purchases of fixed assets.

Financing activities: Financing activities used \$2.3 million, which was the net of \$2 million of restricted gifts and grants, and the \$4.5 million repayment of debt.

Independent Auditors' Report

To the Board of Trustees of
Moravian College and Subsidiary

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Moravian College and Subsidiary (the College), which comprise the consolidated statements of financial position as of June 30, 2020 and 2019, and the related consolidated statements of activities and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Moravian College and Subsidiary as of June 30, 2020 and 2019, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating schedule of financial position and consolidating schedule of activities are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(In Thousands)

1. Nature of Operations

Moravian College is a private, coeducational liberal arts college and theological seminary located in Bethlehem, Pennsylvania. Tracing its founding to 1742, it is recognized as America's sixth-oldest college.

Founded by the Moravian Church, Moravian College today educates a socially and religiously diverse group of students. Moravian College has an enrollment of 1,767 full-time day undergraduate students, 717 men and 1050 women. The Moravian Graduate program has an enrollment of 217 full-time students and 471 part-time students. Moravian College enrolls students that come from a variety of socioeconomic, religious, racial and ethnic backgrounds.

Moravian College Housing, Inc. (MCHI) is a nonprofit corporation organized under the laws of the Commonwealth of Pennsylvania. The purposes of the organization is to develop and operate college student housing. MCHI is a wholly owned subsidiary of Moravian College effective December 10, 2015.

2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements of Moravian College have been prepared on the accrual basis of accounting and include the accounts of Moravian College and MCHI (collectively, the College). All significant intercompany transactions and balances have been eliminated in consolidation. These consolidated financial statements present consolidated financial information showing the financial position, the activities and the cash flows of the College. For financial reporting purposes, the College follows the reporting requirements of GAAP, which require that resources are classified based on the existence or absence of donor-imposed restrictions. This is accomplished by classification of fund balances into two classes of net assets; without donor restrictions and with donor restrictions. Descriptions of the two net asset categories are as follows:

Without Donor Restrictions - Net assets that are not subject to donor-imposed stipulations. These may be designated for specific purposes by action of the Board of Trustees.

With Donor Restrictions - Net assets whose use by the College is subject to donor-imposed stipulations that can be fulfilled by actions of the College pursuant to those stipulations or that expire by the passage of time are reported as net assets with donor restrictions. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, these net assets with donor restrictions are reclassified to net assets without restrictions and reported in the consolidated statements of activities as net assets released from restriction. Additionally, funds received as gifts and bequests which have been accepted with the donor stipulation that the principal be maintained intact in perpetuity are reported as net assets with donor restrictions.

Nonoperating Activities

Nonoperating activities reflect realized and unrealized gains and losses on investments, gains and losses associated with the sale of assets, changes in value of split interest agreements (primarily annuity and trust agreements) and change in value of interest rate swaps.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(In Thousands)

Revenue Recognition

Tuition and fee revenue is recognized in the fiscal year in which the academic services are delivered. Sales and services of auxiliary enterprises revenue, which consists of room and board and related services, is recognized when the related service is provided. Tuition and fee and auxiliary enterprise contracts are considered to have a duration of less than one year. Spring and Summer I tuition and fees are recognized and rendered within the same fiscal year. Tuition and fees for Summer II are recorded in deferred revenue and recognized as revenue in the following year. A portion of Fall tuition and fees are recorded in deferred revenue and recognized in revenue in the following year. Various rehabilitation science and nursing programs are outside of the traditional semester model. Each of these programs is divided into current year and future year revenue based on the number of weeks in which the course takes place.

Tuition, fees, room and board rates are approved by the Board of Trustees. Institutional financial aid and discounts provided by the College are reflected as a reduction of tuition and fee revenue. The College awards grants-in-aid and scholarships to individuals who meet the College's academic standards. The amounts of such awards are based upon the financial needs and/or merit of each applicant. Institutional financial aid and discounts provided to students were approximately \$44,029,000 and \$41,280,000 in 2020 and 2019, respectively.

Amounts are due for tuition, fees, room and board prior to the beginning of each semester. In accordance with the College's refund policies, undergraduate students may receive a full or partial refund up to four weeks after the start of the semester; graduate students may receive a full or partial refund until the close of the first week of classes (drop/add period). Student accounts receivable includes amounts to which the College is unconditionally entitled. The College considers such amounts as unconditional based on the payment due date.

The College's tuition and fee revenues are disaggregated as follows:

	<u>2020</u>	<u>2019</u>
Undergraduate tuition	\$ 78,692	\$ 78,114
Graduate tuition	9,709	7,093
Undergraduate and graduate fees	3,781	3,939
Undergraduate and graduate student aid	<u>(44,029)</u>	<u>(41,280)</u>
Total student tuition and fees, net	<u>\$ 48,153</u>	<u>\$ 47,866</u>

Gifts and pledges are recognized as revenue when received. Gifts specified for the acquisition or construction of long-lived assets are released to net assets without donor restrictions from net assets with donor restrictions when the assets are placed in service.

Contributions received, including unconditional promises are recognized as revenue when the donor's commitment is received. Unconditional promises to give are recognized at their estimated present value of future cash flows, which approximates fair value. The related revenue is assigned to net assets with donor restrictions until collected and any other restrictions are met, if so restricted by the donor.

Private grants and contracts are generally deemed to be exchange (reciprocal) transactions. The performance obligation for each grant or contract is deemed to be the research itself and revenue is recognized as the eligible grant activities are conducted. Transaction prices are based on budgets in the award agreement. Private grants and contracts are generally one year or less in duration. Exchange contracts are not significant to the College's consolidated financial statements.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(In Thousands)

Government grants and contracts are deemed to be nonexchange (nonreciprocal) transactions. Under this guidance, revenue related to conditional grants and contracts is recorded when the conditions are met. Most grants and contracts are on a cost reimbursement basis and require the College to incur eligible expenses prior to the release of funds. The College reports these grants and contracts as changes in net assets without donor restrictions when restrictions are met in the same period. Restricted private gifts are recorded as changes in net assets with donor restrictions. When a donor restriction expires, net assets are reclassified as net assets without donor restrictions.

The Coronavirus Aid, Relief, and Economics Security (CARES) Act provided budgetary relief to higher education institutions. Congress set aside approximately \$14.25 billion of the \$30.75 billion allotted to the Education Stabilization Fund through the Higher Education Emergency Relief Fund (HEERF). Each institution received one grant comprised of two parts. Under the legislation, no less than 50 percent of the full grant was to be used for direct emergency aid to students. The remaining portion of the full grant was to be used by institutions to cover any costs associated with significant changes to the delivery of instruction due to the coronavirus. Institutions were given one calendar year from the date of award in their HEERF Grant Award Notification to complete the performance of their HEERF grant.

The College received approximately \$2,026,000 from the CARES Act Higher Education Emergency Relief Fund (HEERF) on May 8, 2020.

Section 18004(c) of the CARES Act requires institutions to use no less than fifty percent of the funds received from Section 18004(a)(1) of the CARES Act to provide Emergency Financial Aid Grants to students for expenses related to the disruption of campus operations due to coronavirus (including eligible expenses under a student's cost of attendance such as food, housing, course materials, technology, health care and childcare).

To help cover costs such as food, housing, course materials, technology, electric and water bills and other household consumables, the college provided Home Living Grants to 1,175 students in order to assist with the additional costs of living and learning at home. All students have to meet the eligibility requirements as outlined by the Department of Education. Additional grants were given to the neediest families based on eligibility. As of June 30, 2020, \$1,013,000 of the student relief portion of the grant was expended and recognized as federal grants and contracts income and student aid expenses.

Institutions may recognize the institutional portion of the grant to the extent the grant was expended on COVID related disruption expenses of the institution. The institutional portion of HEERF intended to cover an institution's costs associated with significant changes to the delivery of instruction due to the coronavirus. The college expended the entire \$1,013,000 institutional portion of the grant on board plan refunds for students. As of June 30, 2020, \$1,013,000 of the institutional portion of the grant was expended and recognized as federal grants and contract income and auxiliary enterprises.

As restrictions were met in the same period, these grants were reported as changes in net assets without donor restrictions.

Deferred Revenue and Deposits

Deferred revenue and deposits includes payments received prior to the start of the academic term.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(In Thousands)

The following table depicts activities for deferred revenue related to tuition and fees and room and board.

	<u>Balance at June 30, 2019</u>	<u>Refunds Issued</u>	<u>Revenue Recognized Included in June 30, 2019 Balance</u>	<u>Cash Received in Advance of Performance</u>	<u>Balance at June 30, 2020</u>
Tuition and fees, net	\$ 3,097	\$ -	\$ 3,097	\$ 3,577	\$ 3,577
Room and board, net	425	77	348	384	384

Other Liabilities

Other liabilities include financial commitments by a third party vendor that is being recognized as revenue over the life of the contract.

Cash and Cash Equivalents and Restricted Cash

For purposes of the consolidated statements of cash flows, the College considers all highly liquid investments, with a life of three months or less, to be cash equivalents. Additionally, cash and cash equivalents consists of deposits with trustee under debt agreement and the overfunded portion of the self-insurance reserve, which is recorded within other noncurrent assets.

Accounts Receivable

Accounts receivable are not collateralized. Student accounts receivable are reported at net realizable value. Accounts are written off when they are determined to be uncollectible based upon management's assessment of individual accounts. The allowance for doubtful accounts is estimated based on the College's historical losses and periodic review of individual accounts.

Student Loans Receivable and Refundable Federal Loan Funds

These loans are made with funds advanced to the College by the federal government under the Perkins Student Loan Program (the Program). The Program expired on September 30, 2017 and after June 30, 2018 no new loans were permitted. In the event that the College no longer participates in the Program, the amounts are refundable to the federal government. The federal government's portion of these funds was approximately \$1,221,000 and \$1,125,000 at June 30, 2020 and 2019, respectively, and is recorded as a liability in the consolidated statements of financial position. As of June 30, 2020, the College continues to service the Perkins Loan Program.

The prescribed practices for the Program do not provide for accrual of interest on student loans receivable. Accordingly, interest on loans is recorded as received and is reinvested to support additional loans; uncollectible loans are not recognized until the loans are canceled or written-off in conformity with the Programs requirements. The impact of recording interest income on a cash basis is not considered significant. In addition, the credit quality of the student is not evaluated until after the initial approval and calculation of the loans. Delinquent loans and the allowance for losses on loans receivable are reviewed by management, but are not material to the overall consolidated financial statements.

Promises to Give (Contributions Receivable)

Unconditional promises to give that are expected to be collected in future years are recorded at the present value of estimated future cash flows. The discounts on those amounts are computed using the expected rate of return of a market participant applicable to the year in which the promise is received. Amortization of the discount is included in contribution revenue. Conditional promises to give are not included as support until the conditions are substantially met.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(In Thousands)

Investments

The College's investments are comprised of a variety of financial instruments and are managed by investment advisors. The fair values reported in the consolidated statements of financial position are exposed to various risks including changes in the equity markets, the interest rate environment, and general economic conditions. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is reasonably possible that the amounts reported in the accompanying consolidated financial statements could change materially in the near term.

Realized gains and losses arising from the sale of investments and ordinary income from investments are reported as changes in net assets without donor restrictions unless their use is restricted by explicit donor-imposed stipulations.

Split-Interest Agreements

Assets received under split-interest agreements, arrangements in which the College has a beneficial interest but is not the sole beneficiary, are recorded at fair value. Under the terms of certain of these agreements (charitable remainder trusts), the assets are held in trust for the lives of the other income beneficiaries, and upon death, the trusts are terminated and the remaining assets transferred to the College in accordance with the donor's stated restrictions, if any. Liabilities under split-interest agreements represent the present value of estimated contractual payments calculated on an actuarial basis. These calculations require assumptions to be made as to discount rates as of the date of each gift, consideration of the life expectancies of the other beneficiaries, estimated rate of return on invested assets and other factors. The difference between the fair value of assets received, and liabilities assumed, is recognized as gift revenue. During the term of these agreements, adjustments are made to recognize changes in the value of split-interest agreements resulting from changes in actuarial assumptions.

Gift revenues recognized under split-interest agreements are recorded as increases in net assets with donor restrictions unless the donor has given the College the right to use the assets without restriction. If assets become available for use without donor restrictions upon termination of the agreements, appropriate amounts are reclassified from with donor restrictions to without donor restrictions.

Fixed Assets and Depreciation

Land, buildings and equipment are stated at an estimate of original cost, based on independent appraisals, or at cost, less accumulated depreciation, computed on a straight-line basis over the estimated useful lives of buildings (40-50 years), land improvements (20 years), equipment and library books (3-10 years), automotive equipment (5 years) and certain computer equipment (3-5 years). Maintenance and repairs are charged to expense as incurred; replacements and betterments are capitalized. All assets with a purchased cost, or fair value if acquired by gift, in excess of \$2,000 are capitalized.

Contributed property and equipment is recorded at fair value at the date of donation. The College reports expirations of donor restrictions when the donated long-lived assets are placed in service.

Collection items, such as works of art, are capitalized at cost, if purchased, or at their appraised or fair value, if contributed. Gains or losses from deaccessions of these items are reflected on the consolidated statements of activities as a change in the appropriate net asset class, depending on the existence and type of donor-imposed restriction.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(In Thousands)

Self-Insurance

The College participates in a health insurance consortium cooperation agreement (Consortium Agreement) and a health plan trust agreement (Trust Agreement). The Consortium Agreement is a self-funded insurance plan to cover medical claims for the employees of the participants in the consortium. Under the terms of the Trust Agreement, a trust account was established to administer the cash receipts, stop/loss premium and medical claim payments. At each year end, the estimated self-insurance liability, which includes an estimate of incurred but not reported claims, based on data compiled from historical experience is calculated. At June 30, 2020 and 2019, payments made to the trust throughout the year, net of all claims paid from the trust exceed the amount of this estimated liability. This overfunding to be used for future payment of premiums is recorded in other noncurrent assets in the consolidated statements of financial position.

Impairment of Long-Lived Assets

Management of the College reviews long-lived assets (including property and equipment and other assets) for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Management considers the undiscounted cash flow expected to be generated by the use of the asset and its eventual disposition to determine when, and if, an impairment has occurred. An impairment loss is recognized to the extent that the carrying value of assets exceeds their fair value. Any write-downs due to impairment are charged to operations at the time impairment is identified. No such write-downs were required during the years ended June 30, 2020 and 2019.

Deferred Financing Costs

Costs incurred in connection with debt financing are deferred and amortized over the term of the related debt using the straight-line method, which approximates the interest method. Amortization expense was approximately \$36,000 in 2020 and \$33,000 in 2019. Deferred financing costs are presented as a reduction in the carrying amount of the debt liability on the consolidated statements of financial position. See Note 8.

Derivative Financial Instrument

In managing its interest rate exposure, MCHI utilizes interest rate swap arrangements. An interest rate swap is a contractual exchange of interest payments between two parties. A typical interest rate swap involves the payment of a fixed rate times a notional amount by one party in exchange for a floating rate times the same notional amount from another party. To the extent a swap agreement has a positive fair value, indicating that the counterparty to the agreement owes MCHI money, MCHI is exposed to credit risk. The counter party to the MCHI's interest swap agreement is a major financial institution. MCHI recognizes the interest rate swap agreements at fair value and records changes in fair value in nonoperating activities in the consolidated statements of activities.

Government Grants and Student Aid

The amounts under these captions do not include amounts remitted to students under the Pennsylvania Higher Education Assistance Agency (PHEAA), the PELL Grants Program, and other federal and state programs. The grants are similar to agency funds since the College acts only as custodian and disbursing agent for these funds. Had these amounts been included, revenues and expenditures would have increased by approximately \$4,996,000 and \$5,243,000 in 2020 and 2019, respectively.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements
June 30, 2020 and 2019
(In Thousands)

Advertising

The College expensed advertising costs of approximately \$601,000 and \$697,000 during the fiscal years ended June 30, 2020 and 2019, respectively.

Title IV Requirements

The College participates in Government Student Financial Assistance Programs (Title IV) administered by the U.S. Department of Education (ED) for the payment of student tuitions. A substantial number of College students are dependent upon the College's continued participation in the Title IV programs for assistance in tuition payment.

Institutions participating in Title IV programs are also required by ED to demonstrate financial responsibility. ED determines an institution's financial responsibility through the calculation of a composite score based upon certain financial ratios as defined in regulations. Institutions receiving a composite score of 1.5 or greater are considered fully financially responsible. Institutions receiving a composite score between 1.0 and 1.5 are subject to additional monitoring and institutions receiving a score below 1.0 are required to submit financial guarantees in order to continue participation in the Title IV programs. As of June 30, 2020 and 2019 and for the years then ended, the College's composite score exceeded 1.5.

Income Taxes

Moravian College and MCHI qualify as tax-exempt, nonprofit organizations under Section 501(c)(3) of the Internal Revenue Code. Accordingly, there is no provision for federal or state income taxes.

The College accounts for uncertainties in income taxes in accordance with authoritative guidance, which prescribes a recognition threshold of more-likely-than-not to be sustained upon examination by the appropriate taxing authority. Measurement of the tax uncertainty occurs if the recognition threshold has been met. Management determined that there were no tax uncertainties that met the recognition threshold at June 30, 2020 and 2019.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

Subsequent events were evaluated through October 19, 2020, the date the consolidated financial statements were issued.

Accounting Standards Adopted in the Current Year

In November 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*. ASU No. 2016-18 requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the amounts shown in the consolidated statements of cash flows. The College retroactively adopted the guidance in ASU No. 2016-18, with transition provisions, for fiscal 2020.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements
June 30, 2020 and 2019
(In Thousands)

As a result of the adoption of ASU No. 2016-18, the consolidated statement of cash flows for the year ended June 30, 2019 was restated as follows:

	After Adoption of ASU No. 2016-18	As Originally Presented	Difference
Change in deposits with trustees under debt agreements	\$ 392	\$ (73)	\$ 465
Net cash used investing activities	(9,430)	(9,895)	465
Net increase in cash and cash equivalents and restricted cash	1,781	1,316	465
Cash and cash equivalents and restricted cash, beginning	10,525	9,427	1,098
Cash and cash equivalents and restricted cash, ending	12,306	10,743	1,563

New Accounting Standards Not Yet Adopted

In February 2016, the FASB issued ASU No. 2016-02, *Leases*. ASU No. 2016-02 was issued to increase the transparency and comparability among entities. Lessees will need to recognize nearly all lease transactions (other than leases that meet the definition of a short-term lease) on the statement of financial position as a lease liability and a right-of-use asset (as defined). Lessor accounting under the new guidance will be similar to the current model. ASU No. 2016-02 is effective for the College in fiscal 2023. Upon adoption, lessees and lessors will be required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach, which includes a number of optional practical expedients that entities may elect to apply. The College is assessing the impact this standard will have on its consolidated financial statements.

3. Accounts Receivable

Accounts receivable represents amounts due for tuition, fees, room and board and other charges from students and other entities. The College extends unsecured credit to students and other entities in connection with studies and various activities. Some students are no longer enrolled or have completed their degrees. Accounts receivable consists of the following at June 30:

	2020	2019
Accounts receivable	\$ 3,538	\$ 2,771
Allowance for doubtful accounts	(663)	(693)
	<u>\$ 2,875</u>	<u>\$ 2,078</u>

Moravian College and Subsidiary

Notes to Consolidated Financial Statements
June 30, 2020 and 2019
(In Thousands)

4. Contributions Receivable

Contributions receivable consisted of the following at June 30:

	<u>2020</u>	<u>2019</u>
Due in one year or less	\$ 3,472	\$ 2,979
Due between one year and five years	8,835	8,220
Greater than five years	<u>3</u>	<u>15</u>
Contributions receivable, gross	12,310	11,214
Unamortized present value discount (rates ranging from 1.2% to 6.2%)	<u>(515)</u>	<u>(494)</u>
Contributions receivable, net	<u>\$ 11,795</u>	<u>\$ 10,720</u>

Management has not established an allowance for doubtful collections at June 30, 2020 and 2019 based upon information currently known. However, events impacting donors can occur in subsequent years that may cause a material change in the allowance for doubtful collections.

5. Fair Value Measurements, Investments and Other Financial Instruments

The College measures its deposits with trustees, investments, beneficial interest in perpetual trusts and split interest agreements at fair value on a recurring basis in accordance with accounting principles generally accepted in the United States of America. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework that the authoritative guidance established for measuring fair value includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs used in determining valuations into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1 - Fair value is based on unadjusted quoted prices in active markets that are accessible to the College for identical assets or liabilities. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Level 2 - Fair value is based on significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the same term of the asset or liability through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets, quoted market prices in markets that are not active for identical or similar assets and other observable inputs.

Level 3 - Fair value is based on significant unobservable inputs. Examples of valuation methodologies that would result in Level 3 classification include option pricing models, discounted cash flows and other similar techniques.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(In Thousands)

The following tables present the financial instruments measured at fair value as of June 30, 2020 and 2019 by caption on the consolidated statements of financial position by the valuation hierarchy defined above:

	2020			Total Fair Value
	Level 1	Level 2	Level 3	
Assets reported at fair value:				
Investments:				
Cash and money market accounts	\$ 1,194	\$ -	\$ -	\$ 1,194
Domestic equity:

Total deposits with trustee under debt agreements	3,221	-	-	3,221
Beneficial interest in perpetual trusts	-	-	2,216	2,216
Split-interest agreements	-	-	404	404
Total assets	<u>\$ 86,955</u>	<u>\$ -</u>	<u>\$ 2,620</u>	<u>\$ 89,575</u>
Liabilities reported at fair value:				
Interest rate swaps	<u>\$ -</u>	<u>\$ 978</u>	<u>\$ -</u>	<u>\$ 978</u>

The following methods and assumptions were used to estimate fair values of the College's financial instruments as of June 30, 2020 and 2019:

Cash, Cash Equivalents and Money Market Accounts

The carrying amounts are reasonable estimates for their fair values due to the short-term nature of these financial instruments. These are considered Level 1 measurements due to their liquidity.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(In Thousands)

Investments

The fair value of domestic and international equity funds, domestic fixed income securities and U.S. government securities was based on quoted market prices for the identical securities, which are considered Level 1 inputs.

The fair value of alternative investments was based on estimated fair values using net asset value (NAV) per share of the investment as provided by investment managers, as a practical expedient, without further adjustment, unless it is probable that the investment will be sold at a significantly different value. If not determined as of the College's measurement date, NAV is adjusted to reflect any significant events that would materially affect the security's value. Certain attributes that impact the security's fair value may not be reflected in NAV, including, but not limited to, the investor's ability to redeem the investment at the measurement date and unfunded purchase commitments. If the College sold all or a portion of its alternative investments, it is reasonably possible that the transaction value could differ significantly from the estimated fair value at the measurement date, because of the nature of the investments, changes in market conditions and the overall economic environment. In accordance with Subtopic 820-10, investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the table above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the consolidated statements of financial position.

Beneficial Interest in Perpetual Trusts and Split-Interest Agreements

The fair value of the beneficial interest in perpetual trusts and split-interest agreements was based on the College's percent ownership of the underlying trust assets, which approximates the present value of estimated cash flows to be received and are considered Level 3 inputs.

Interest Rate Swap

Interest rate swaps are classified as Level 2 as the fair value is based on observable inputs to a valuation model (interest rates, credit spreads, etc.) which take into account the present value of the estimated future cash flows and credit valuation adjustments.

Alternative Investments

Alternative investments are funds and partnerships that invest in a variety of strategies including hedge funds, private equity, real estate and multi-strategy equities. These are generally illiquid investments, pooled and professionally managed with the goal of generating high returns.

The Hedge Funds category includes investments in several funds. These funds allocate their assets to hedge fund managers that specialize in a wide range of alternative investment strategies. The funds offer the College exposure to a broad range of hedge fund strategies including long/short, global macro, emerging markets, event-driven, distressed credit, multi-strategy and emerging markets. The hedge funds in this category have redemption frequencies that include monthly, quarterly, or semi-annual redemption requirements.

The Private Equity Funds category includes investments in several funds. These funds invest in a variety of private equity partnerships and other private equity investments. Investments include leveraged buyouts, growth equity, venture capital, mezzanine debt, real estate, distressed debt and funds of funds as well as portfolios of direct and co-investments.

The Real Asset Funds category includes investments in several funds. Two of the funds in this category invest in various types of real estate, including retail, hotel, office, apartment, industrial and storage property throughout the United States, Mexico and Canada. A few other funds in this category invest in a select group of investment funds in the natural resource sector with an emphasis on crude oil and natural gas production and timberland, but with exposure to funds investing in farmland and metals and minerals as well.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(In Thousands)

Fair value measurements of investments in certain entities that calculate NAV per share (or its equivalent) as of June 30, 2020 and 2019 are as follows:

	<u>Fair Value at NAV</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Hedge funds	\$ 15,371	\$ -	Various	35 - 65 days
Private equity funds	14,610	12,940	Illiquid	
Real asset funds	<u>898</u>	<u>184</u>	Illiquid	
Balance at June 30, 2020	<u>\$ 30,879</u>	<u>\$ 13,124</u>		
Hedge funds	\$ 17,520	\$ -	Various	35 - 65 days
Private equity funds	14,475	8,098	Illiquid	
Real asset funds	<u>1,323</u>	<u>451</u>	Illiquid	
Balance at June 30, 2019	<u>\$ 33,318</u>	<u>\$ 8,549</u>		

For assets falling within the Level 3 in the fair value hierarchy, the activity recognized during the year ended June 30, 2020 and 2019 are as follows:

	<u>Beneficial Interest in Perpetual Trusts</u>	<u>Split-Interest Agreements</u>	<u>Level 3 Total</u>
Balance at June 30, 2018	\$ 2,222	\$ 682	\$ 2,904
Unrealized gains	83	116	199
Distributions	<u>(89)</u>	<u>(394)</u>	<u>(483)</u>
Balance at June 30, 2019	2,216	404	2,620
Unrealized gains	73	15	88
Distributions	<u>(78)</u>	<u>(22)</u>	<u>(100)</u>
Balance at June 30, 2020	<u>\$ 2,211</u>	<u>\$ 397</u>	<u>\$ 2,608</u>

Investments

The majority of endowment and annuity funds are combined in investment pools with each individual account subscribing to or disposing of shares on the basis of the market value per share. The investment objective is to maximize long-term total return through a combination of income and capital appreciation in a manner consistent with sound investment practices. Total investments at June 30 were as follows:

	<u>2020</u>	<u>2019</u>
Endowment funds	\$ 111,672	\$ 115,306
Annuity funds	888	943
Capital campaign funds	234	57
Other funds	<u>6</u>	<u>746</u>
	<u>\$ 112,800</u>	<u>\$ 117,052</u>

Moravian College and Subsidiary

Notes to Consolidated Financial Statements
June 30, 2020 and 2019
(In Thousands)

The College has a formal investment policy that provides a portion of investment return for operating purposes. The Board of Trustees sets the level of distribution within the limitation imposed by Pennsylvania statute.

The College's principal financial instruments subject to credit risk are its investments. The investments are managed by professional advisors subject to the College's investment policy. The degree and concentration of credit risk varies by type of investment.

6. Land, Buildings and Equipment, Net

Land, buildings and equipment, net consist of the following at June 30:

	<u>2020</u>	<u>2019</u>
Land and land improvements	\$ 24,467	\$ 23,352
Buildings	177,920	175,406
Equipment	48,970	48,615
Library books	9,819	9,740
Collection items	4,655	4,582
Construction in progress	6,466	3,349
	<u>272,297</u>	<u>265,044</u>
Accumulated depreciation	<u>(118,746)</u>	<u>(110,659)</u>
	<u>\$ 153,551</u>	<u>\$ 154,385</u>

At June 30, 2020 construction in progress included four renovation projects. The projects included new heating and cooling system infrastructure and boiler equipment for South Campus, the Sports Medicine Rehabilitation Center Building to provide space for new programs with audiology and occupational therapy equipment and laboratory spaces, locker room space connected to the Fitness Center and full window replacement for Comenuis Hall.

Depreciation expense was approximately \$10,188,000 and \$10,133,000 in 2020 and 2019, in which MCHI depreciation expense accounted for approximately \$578,000 and \$637,000 of the total, respectively.

7. Note Payable, Demand

The College has a \$1,000,000 secured line of credit, which is renewable March 31 of each year. Borrowings bear interest, payable monthly, at the London Interbank Offered Rates (LIBOR) plus 1.50 percent. There were no borrowings at June 30, 2020 and 2019.

On August 14, 2020, the College was granted an increase to the secured line of credit, increasing the amount available to \$3,000,000. The secured line of credit is renewable March 31 of each year. Borrowings bear interest, payable monthly at the London Interbank Offered Rates (LIBOR) plus 2.00 percent.

(In Thousands)

8. Long-Term Debt

Long-term debt of the College consisted of the following at June 30:

	<u>2020</u>	<u>2019</u>
College Revenue Bonds of 2012 (issued through Northampton County General Purpose Authority), with principal due annually in amounts through July 2031 plus interest payable semi-annually and rates ranging from 0.50% to 5.00% (3.0% at June 30, 2020).	\$ 16,825	\$ 17,465
College Revenue Bonds of 2013 (issued through Northampton County General Purpose Authority), with principal due annually in amounts through October 2042 plus interest payable semi-annually and rates ranging from 1.60% to 4.125% (2.25% at June 30, 2020).	8,445	8,680
College Revenue Bonds of 2016 (issued through Northampton County General Purpose Authority), with principal due annually in amounts through October 2045 plus interest payable semi-annually and rates ranging from 2.125% to 5.00% (4.0% at June 30, 2020).	26,960	27,640
Note payable, due in annual principal repayments through July 2034 and interest payable semi-annually at 3.65% through July 2025, then at LIBOR plus 2.00% thereafter.	5,221	5,498
Note payable, due in monthly principal repayments through July 2040, with interest payable monthly at 4.43% through May 2028, then at LIBOR plus 1.5% thereafter and subject to a maximum rate of 8.0%.	2,364	2,435
MCHI Revenue Note of 2017 (issued through Northampton County Industrial Development Authority), with principal payments due monthly through January 2038 plus interest payable monthly at 68% of LIBOR plus 1.36% (1.56% at June 30, 2020).	17,313	17,943
Note payable (issued through the Redevelopment Authority of the City of Bethlehem) with principal due monthly starting in July 2020 through June 2039 plus interest payable monthly at 3.25% through June 2034, then variable at 79% of the sum of LIBOR plus 2.00% thereafter.	6,000	6,000
Equipment financing, interest ranging from 1.0% to 7.0%, due in equal installments through 2024 for technology and vehicle equipment.	3,348	4,031
	<u>86,476</u>	<u>89,692</u>
Less deferred financing costs	(610)	(646)
Less current portion	(4,742)	(4,134)
Unamortized premium	1,938	2,192
	<u>\$ 83,062</u>	<u>\$ 87,104</u>

The indentures of the College Revenue Bonds of 2012, 2013, 2016, and all notes payable, with the exception of MCHI Revenue note, require the College to pledge as collateral its unrestricted gross revenues not previously pledged.

The College Revenue Bonds of 2012 require that the College maintain a debt service reserve fund in accordance with the revenue bond document.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(In Thousands)

The MCHI Revenue Note of 2017 requires that MCHI maintain a capital replacement reserve account in accordance with the revenue bond document.

The HILL dormitory is the only pledged asset of the MCHI Revenue Note of 2017, thus the debt is separate from the obligated group of the College and neither entity may claim more than their respective revenues.

Principal repayments of long-term debt for the years ending June 30 are as follows:

2021	\$	4,742
2022		4,602
2023		4,320
2024		3,750
2025		3,880
Thereafter		<u>65,182</u>
	\$	<u>86,476</u>

All College debt was used to finance capital expenditures. Interest expense, net of amounts capitalized, related to long-term debt was approximately \$2,999,000 and \$3,059,000 in 2020 and 2019, respectively, and included in the consolidated statements of activities. Included in the total interest expense was approximately \$574,000 and \$594,000 related to MCHI, in 2020 and 2019, respectively.

9. Interest Rate Swap Agreements

MCHI executed two interest rate swap agreements on May 31, 2017. The swap agreements require MCHI to make 3.26 percent fixed interest payments and receive variable interest rate payments from its counter party based on one month LIBOR plus a spread of 136 basis points. The notional amount outstanding on the combined total was \$17,313,000 and \$17,943,000 at June 30, 2020 and 2019, respectively. The variable rates were 68 percent of one-month LIBOR and the combined fair value of the swap instruments were approximately \$(2,304,000) and \$(978,000) and included in other liabilities and other noncurrent assets at June 30, 2020 and 2019, respectively. The swap agreements terminate on April 1, 2032.

10. Employee Benefit Plan

The College participates in a defined contribution pension plan covering substantially all regular full-time employees. Pension expense was approximately \$1,849,000 and \$2,214,000 in 2020 and 2019, respectively.

11. Postretirement Benefits Other Than Pensions

The College provides postretirement benefits other than pensions to its employees. The benefits are limited to retirees between ages 60 and 65. These benefits include partial reimbursements of premiums on medical insurance policies for employees and certain spouses and are available to all employees hired prior to January 1, 2004 who retire after 15 years of service to the College at age 60 or older. The College does not prefund these postretirement benefit obligations. Payments made to or on behalf of beneficiaries under these obligations, representing both employer contributions and benefits paid were approximately \$67,000 in 2020 and \$73,000 in 2019. The measurement date used to determine the postretirement benefit obligation was June 30.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements
June 30, 2020 and 2019
(In Thousands)

12. Net Assets

Net assets without donor restrictions result from contributions and other inflows of assets whose use by the College is not limited by donor-imposed stipulations.

Net assets without donor restrictions are available for the following purposes as of June 30:

	<u>2020</u>	<u>2019</u>
Plant facilities	\$ 66,951	\$ 62,964
Board-designated endowment	18,330	19,652
Other	<u>(3,402)</u>	<u>(549)</u>
Total net assets without donor restrictions	<u>\$ 81,879</u>	<u>\$ 82,067</u>

Net assets with donor restrictions result from contributions and other inflows of assets whose use by the College is limited by donor-imposed stipulations that expire by the passage of time or can be fulfilled and removed by actions of the College pursuant to those stipulations. Donor-imposed stipulations may also require that assets be maintained permanently by the College.

Net assets with donor restrictions consist of the following at June 30:

	<u>2020</u>	<u>2019</u>
Specified purposes	\$ 36,352	\$ 39,634
Assets held in perpetuity	76,645	73,700
Net assets held to split interest agreements	<u>2,509</u>	<u>2,514</u>
Total net assets with donor restrictions	<u>\$ 115,506</u>	<u>\$ 115,848</u>

13. Endowment

The College's endowment consists of individual funds established for a variety of purposes. It includes both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments. As required by accounting principles generally accepted in the United States of America, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The Board of Trustees of the College has developed a policy requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent any explicit donor stipulations to the contrary. As a result of this interpretation, the College classifies as donor restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations, including income and gains, to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. Board designated investment funds are balances functioning as an endowment that are established by the institution from either donor or institutional monies, and are usually to be retained and invested rather than expended. Since board designated investment funds are established by the institution rather than an external source, the principal may be expended, as directed by the Board of Trustees.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(In Thousands)

The College considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1. The duration and preservation of the fund.
2. The purposes of the College and the donor-restricted endowment fund.
3. General economic conditions.
4. The possible effect of inflation and deflation.
5. The expected total return from income and appreciation of investments.
6. The investment policies of the College.

Net asset classification by type of endowment as of June 30, 2020:

	Board Designated	With Donor Restrictions	Total
Endowment net assets, beginning of year	\$ 19,652	\$ 95,359	\$ 115,011
Investment return:			
Investment income	667	3,227	3,894
Net appreciation (realized and unrealized losses)	(804)	(3,936)	(4,740)
Total investment return	(137)	(709)	(846)
Contributions	143	2,397	2,540
Board approved appropriations	(500)	-	(500)
Appropriation of endowment assets for expenditure	(828)	(3,993)	(4,821)
Endowment net assets, end of year	\$ 18,330	\$ 93,054	\$ 111,384

Moravian College and Subsidiary

June 30, 2020 and 2019
(In Thousands)

Net asset classification by type of endowment as of June 30, 2019:

	<u>Board Designated</u>	<u>With Donor Restrictions</u>	<u>Total</u>
Endowment net assets, beginning of year	\$ 20,042	\$ 92,898	\$ 112,940
Investment return:			
Investment income	830	3,755	4,585
Net appreciation (realized and unrealized gains)	115	629	744
Total investment return	945	4,384	5,329
Contributions	10	1,918	1,928
Board approved appropriations	(500)	-	(500)
Appropriation of endowment assets for expenditure	(845)	(3,841)	(4,686)
Endowment net assets, end of year	<u>\$ 19,652</u>	<u>\$ 95,359</u>	<u>\$ 115,011</u>

Funds With Deficiencies

The fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or the relevant state law requires the College to retain as a fund of perpetual duration. There were no such deficiencies reported at June 30, 2020 or 2019.

Return Objectives and Risk Parameters

The College has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the College must hold in perpetuity or for a donor-specified period as well as board-designated funds. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce results that exceed the spending policy rate plus the expected inflation rate. The College expects its endowment fund, over time, to provide an average rate of return of approximately 7.0 percent annually. Actual returns in any given year may vary from this amount.

Strategies Employed for Achieving Objectives

The College relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The College targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Moravian College and Subsidiary

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(In Thousands)

Endowment Spending Policy and How the Investment Objectives Relate to the Spending Policy

The College has a total return policy of appropriating for distribution each year a percent of its endowment fund's average fair value over the past twelve calendar quarters. This percentage was 4.5 percent for both 2020 and 2019. If the spending policy distribution amount exceeds the actual earnings of the endowment funds in any one year, then the amount needed to fund such excess will be taken from accumulated excess earnings and net capital gains from prior years. Conversely, any undistributed income after the allocation of the spending policy distribution is added back to net assets with donor restriction. In establishing this policy, the College considered the long-term expected return on its endowment. Accordingly, over the long-term, the College expects to allow its endowment to return an average rate of 7.0 percent annually prior to any distributions (spending policy). This is consistent with the College's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

14. Commitments

In connection with several ongoing projects on campus, the College has commitments to several vendors totaling approximately \$949,000 and \$2,620,000 as of June 30, 2020 and 2019, respectively. The College is using proceeds from the College Revenue Note of 2019 and operating cash to fund these projects. See Note 8.

15. Contingency

The College owns several buildings constructed prior to the passage of the Clean Air Act that contain encapsulated asbestos material. Current law requires that this asbestos be removed in an environmentally safe manner prior to demolition or renovation of the buildings. The College has not recognized the asset retirement obligation for asbestos removal in its consolidated financial statements because it currently has no plans to demolish or renovate these buildings and, as such, cannot reasonably estimate the fair value of the obligation. If plans change with respect to the use of the buildings and sufficient information becomes available to estimate the liability, it will be recognized at that time.

16. Liquidity and Availability of Resources

The College's financial assets available within one year of the consolidated statement of financial position date for general expenditure are as follows at June 30:

	<u>2020</u>	<u>2019</u>
Cash and cash equivalents (net of cash restricted for capital improvements and balance requirements)	\$ 9,880	\$ 5,673
Accounts receivable, net	2,875	2,078
Investment income receivable	2	14
Planned appropriation of endowment	5,027	4,809
Contributions receivable due within one year	5	89
	<u>17,789</u>	<u>12,663</u>
Financial assets available to meet cash needs for general expenditures within one year	<u>\$ 17,789</u>	<u>\$ 12,663</u>

Moravian College and Subsidiary

Notes to Consolidated Financial Statements

June 30, 2020 and 2019

(In Thousands)

As part of the College's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities and other obligations come due. In the event of an unanticipated liquidity-need, the College could draw upon \$3,000,000 from an available line of credit. In addition, the College has a board-designated endowment of \$18,330,000. Although the College does not intend to spend from its board-designated endowment other than amounts appropriated for general expenditure as part of its annual budget approval and appropriation process, amounts from the College board-designated endowment could be made available, if necessary. However, both the board-designated endowment and donor-restricted endowments contain investments with lock-up provisions that would reduce the total investments that could be made available.

17. Functional Classification of Expenses

The costs of providing program services and supporting services of the College have been summarized on a functional basis in the following schedule. The College allocates expenses for benefits, interest and the physical plant based on salaries, the use of debt proceeds and square footage.

Functional expenses by natural classification consist of the following as of June 30, 2020 and 2019:

	2020							Total Expenses
	Depreciation	Equipment and Maintenance	Interest	Other	Professional Fees	Salaries	Benefits	
Resident instruction	\$ 5,069	\$ 808	\$ 1,814	\$ 5,583	\$ 546	\$ 17,019	\$ 4,885	\$ 35,724
