

## **FACULTY POSTING: Assistant / Associate Professor of Athletic Training**

Twelve-month tenure track position for an assistant or associate professor to teach in the Master of Science in Athletic Training Program and the new Doctor of Athletic Training Program in the Department of Rehabilitation Sciences. This is a new faculty line and will constitute the fourth full-time faculty member in the growing and vibrant Athletic Training Program. The Department will house graduate programs in Athletic Training (MSAT & DAT), Occupational Therapy (MSOT), Speech Pathology (MS-SLP) and Physical Therapy (DPT). The Athletic Training program is seeking to admit its third class of students in Summer 2018 and is preparing for a CAATE accreditation site visit in February 2018.

Position begins June 2018. Must have an earned Master's degree in Athletic Training or a related field (earned doctoral degree or current enrollment in a doctoral program preferred), eligibility for PA licensure, and a minimum of three years clinical experience as an athletic trainer. Addition of licensure in PT or OT preferred. Preference will be given to those individuals with teaching experience, clinical instruction experience and experience with CAATE Accreditation process.

The individual filling this position will primarily teach in the MSAT program with the addition of teaching one to two courses per year in the DAT program (based on area of expertise). Both graduate Athletic Training programs allow for professional mentoring, leadership opportunities, and collaborative teaching opportunities. Faculty in the AT programs are also expected to assist in all aspects of program design, development, implementation, assessment, and administration.

The vision for the Department of Rehabilitation Sciences at Moravian College is to develop collaborative, inter-professional graduate programs in Athletic Training, Occupational Therapy, Speech Pathology and Physical Therapy within a single academic unit. By combining an entrepreneurial spirit and a unique curricular structure, students and faculty are able to engage with one another across disciplines in a truly inter-professional educational environment modeled toward best practices in the clinical setting. This collaborative environment is designed to foster student learning and engagement while avoiding the traditional discipline-specific silos that impede learning.

**TO APPLY:** Qualified candidates should send the following materials as one, single PDF file: cover letter, resume, and a list of three (3) professional references. Please send all materials to James Scifers, at [search.rehabsciences@moravian.edu](mailto:search.rehabsciences@moravian.edu).

**Review of applicants will commence December 15, 2017 and continue until the position is filled.** All positions are subject to budget availability.

Founded in 1742, Moravian College is the sixth-oldest college in the country. Moravian is a private coeducational liberal arts college that is located in historic Bethlehem, in the heart of Pennsylvania's Lehigh Valley. Moravian is composed of a traditional undergraduate program, graduate, professional, and adult completion programs, and Moravian Theological Seminary.

Moravian College is committed to enhancing the diversity of our community, recognizing that to provide a diverse learning environment is to prepare students for personal and professional success in an increasingly multicultural and global society. The College community understands that it shares a responsibility for generating and preserving a learning environment where difference is valued, and inclusiveness and social justice are practiced.
