

Take a closer look
at our program!

Master of Science in Athletic Training (MSAT)

Become a key member of healthcare teams in the management, prevention, and recovery of injured patients

Immerse yourself in meaningful clinical experiences

Experience a unique student-designed clinical education model that spans the athletic training curriculum. Gain hands-on clinical experiences in high schools, colleges, performing arts centers, industrial and manufacturing industries, the military, and more under the supervision of certified athletic trainers and healthcare professionals.

What does this mean?

You can explore multiple settings across 50 weeks of immersive clinical education experiences. You will work with program faculty to design a clinical education plan that meets your professional goals.

Develop Skills For Optimal Patient-Centered Care

A collaborative, evidence-based learning environment allows for unique, comprehensive growth and development. In just two years you will:

- Possess advanced knowledge and clinical skills
- Appreciate the importance of evidence-based practice and research in the field
- Understand professional roles in a variety of clinical settings and collaborate with other professionals in the delivery of patient care
- Utilize reflection and critical analysis skills to solve problems in your practice

MORAVIAN
UNIVERSITY

State-of-the-Art Facilities

The health sciences facilities at Moravian University feature cutting-edge equipment, collaborative work spaces, and clinical environments that mirror what professionals use in the field.

- The Sports Medicine and Rehabilitation Center occupies 44,600 square feet and features labs, classrooms, faculty offices, and clinical space.
- The Sally Breidegam Miksiewicz Center for Health Sciences is a 56,000-square foot building with flexible classroom space, virtual cadaver lab, high- and low-fidelity simulation labs with observation rooms, and multiple specialty science labs.

First Time BOC Pass Guarantee

We're so sure you'll pass your Board of Certification exam on the first try, we'll pay for any future attempts needed to become certified.

Apply for FREE Online

There's no application fee!

No Textbook Costs

Textbooks are provided free of cost for student use while enrolled in the MSAT program.

Interprofessional Focus

Collaborative classroom, lab, and research experiences throughout the curriculum with a variety of other professionals and students.

Meet our Core Faculty

David Wilkenfeld, EdD, LAT, ATC, MSAT Program Director

Dr. Wilkenfeld's clinical expertise centers around caring for performing artists and the assessment and management of foot and ankle problems. He has provided athletic training services for musicians and dancers, as well as musical theater, drag, and stunt performers. Dr. Wilkenfeld continues to work clinically as a per diem athletic trainer for youth sports and the performing arts, and enjoys sharing these clinical opportunities with his students.

Ellen K. Payne, PhD, LAT, ATC, EMT, Director of Clinical Education

Dr. Payne started her full-time clinical practice at the secondary school level in California. Throughout her career, she has worked with all levels of athletes from youth sports to the US Paralympic Alpine Ski Team. Dr. Payne continues to work clinically as a per diem athletic trainer for St. Luke's Sports Medicine and the Special Olympics of Pennsylvania. Additionally, Dr. Payne is an active EMT and a member of the National Ski Patrol. These clinical opportunities help inform her teaching and research.

Joshua Wooldridge, PhD, LAT, ATC, CSCS, BRM, Assistant Professor

Dr. Wooldridge's clinical interests include caring for atypical populations such as tactical occupations, performing artists, and strength sport athletes. He holds credentials as a NSCA Certified Strength and Conditioning Specialist, a ClinicalAthlete Certified Powerlifting Coach, and a Barbell Rehab Method Certified Clinician.

Jennifer Ostrowski, PhD, LAT, ATC, Director of the Doctor of Athletic Training Program

Dr. Ostrowski's clinical expertise is in therapeutic modalities and psychosocial aspects of injury / mental health. She has authored chapters on mental health in three national textbooks, authored the Stigma Prevention module for the NATA Microcredential on Secondary School Mental Health Preparedness, and serves as an Instructor for the Mental Health First Aid certification. Dr. Ostrowski has previously served as the Athletic Training Program Director at Weber State University and Director of Clinical Education at Moravian University and Lasell University.
