

ORGANIZATIONAL HOUSING OVERVIEW

Organizational Housing at Moravian College is designed to provide environmental support to the academic and co-curricular elements of the College. It is an opportunity for active members of a USG recognized club/organization or Moravian College athletic team to establish a living space that meets the goals and interests of the group.

Organizational Housing aims to:

- Provide a means for resident students to exercise a greater degree of control and responsibility for the creation of their own unique living experiences
- Increase the breadth and depth of student engagement in campus activities
- Enrich the learning environment for all members of the campus community
- Create a more direct link between co-curricular pursuits and the residential experience

Selection Criteria

The Office of Housing & Event Management will review applications, and may consult Student Involvement and Athletics. In addition to merit of the application and vibrancy of the group, housing placements will be determined based on the following order:

- Total housing points
- Lottery numbers will be used in the event that multiple groups have the same number of housing

Similar to the off-campus housing process, members' conduct history and GPA may be considered in order to assign the strongest groups to these community spaces.

Decisions are based solely on the members who appear in this application. Substitutions may not be made after the application is submitted. If an intended member of the house withdrawals from the group prior to General Housing Selection, the entire application will be void. **A member whose name appears on the housing list will not be approved for off-campus housing.**
