History and Architecture in Venice, Salzburg, Munich, Paris and Berlin

May 11-May 30, 2020

IDIS 164 TR

This 20-day trip to Venice, Salzburg, Munich, Paris and Berlin led by Dr. Lalande and Ms. Anne Reid will introduce you to the major architectural styles of the five cities. As you experience these styles, you will be able to relate them to the history and political regimes from the time those landmarks were created. By the end of the trip, you will be able to identify most of the major architectural styles that have dominated the history of the western world. You will also understand the extent to which architecture is not only a form of art, but is also a powerful tool in the hands of political leaders to showcase the power, wealth, and, sometimes, but not always, the genius of the regimes they lead.
