## Resource Guide for Remote Learning

---

April, 2020

---

To support your #RemoteLearning efforts, explore the latest free resources designed by Apple Education @AppleEDU. We have curated resources from Apple Distinguished Educators and education partners, such as Wide Open School, to bolster your distance learning journey.

**Wide Open School from @CommonSense:** Apple has collaborated with Common Sense to share our remote learning content on their new website. It's a free collection of online learning experiences for educators, students, and families, as well as IT leaders. Discover apps, curriculum, and support to help build great learning experiences wherever you are located.

**1:1 Virtual Support:** Virtual one-on-one coaching sessions with Apple Professional Learning Specialists are available to help individual educators hone their approach to online student learning and workflows. To schedule a coaching session, educators should email to request a virtual coaching session. [AppleProfessionalLearning@apple.com](mailto:AppleProfessionalLearning@apple.com)

**On-Demand Videos:** The Apple Education Learning Series provides on-demand videos designed to help educators use Apple products and their built-in features to enable remote learning for all students. There are currently three videos in the series with more on the way.

[Create and Share Presentations and Demos](#)  
[Create Engaging Videos with Clips](#)

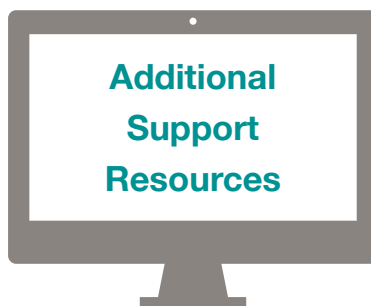

**Virtual Conferences:** As a follow-up to the on-demand Apple Education Learning Series, educators can also participate in virtual conferences led by Apple Professional Learning Specialists. Visit the [virtual conference schedule](#) to find events in your time zone. Each virtual conference will run for approximately 30 minutes and will provide an opportunity for educators to engage in dialogue with our teams about the content provided in each video.

**Online Forum Discussions:** Educators can also chat online, ask questions, and get help from these Apple Education support communities:
