

Moravian College MSAT Program Technical Standards

The MSAT Program at Moravian College is a rigorous and intense program that places specific requirements and demands on the students enrolled in the program. An objective of this program is to prepare graduates to enter a variety of employment settings and to render care to a wide spectrum of individuals engaged in physical activity. The technical standards set forth by the MSAT Program establish the essential qualities considered necessary for students admitted to this program to achieve the knowledge, skills, and abilities of an entry-level athletic trainer, as well as meet the expectations of the program's accrediting agency (Commission on Accreditation of Athletic Training Education [CAATE]). The following abilities and expectations must be met by all students admitted to the MSAT Program. In the event a student is unable to fulfill these technical standards, with or without reasonable accommodation, the student will not be allowed to matriculate through the program.

Compliance with the program's technical standards does not guarantee a student's eligibility for the BOC certification exam.

Candidates for selection to the MSAT Program must demonstrate:

1. the mental capacity to assimilate, analyze, synthesize, integrate concepts and problem solve to formulate assessment and therapeutic judgments and to be able to distinguish deviations from the norm;
2. sufficient postural and neuromuscular control, sensory function, and coordination to perform appropriate physical examinations using accepted techniques; and accurately, safely and efficiently use equipment and materials during the assessment and treatment of patients;
3. the ability to communicate effectively and sensitively with patients and colleagues, including individuals from different cultural and social backgrounds; this includes, but is not limited to, the ability to establish rapport with patients and communicate judgments and treatment information effectively. Students must be able to understand and speak the English language at a level consistent with competent professional practice;
4. the ability to record the physical examination results and a treatment plan clearly and accurately;
5. the capacity to maintain composure and continue to function well during periods of high stress, including demonstrating appropriate coping mechanisms that allow for adequate emotional and mental stability to provide care to others;
6. the perseverance, diligence and commitment to complete the athletic training education program as outlined and sequenced;
7. the ability to adjust to changing situations and uncertainty in clinical situations;
8. affective skills and appropriate demeanor and rapport that relate to professional education and quality patient care.

Candidates for selection to the MSAT program will be required to verify they understand and meet these technical standards or that they believe that, with certain accommodations, they can meet the standards. Students are required to notify the Program Director of any change in health status that impacts his/her ability to meet the technical standards while enrolled in the MSAT program.

If a student states he or she can meet the technical standards with accommodation, then the College will determine whether it agrees that the student can meet the technical standards with reasonable accommodation; this includes a review of whether the accommodations requested are reasonable, taking into account whether accommodation would jeopardize clinician/patient safety, or the educational process of the student or the institution, including all coursework, laboratory work and clinical education experiences deemed essential to graduation.

Check One Below:

I certify that I have read and understand the technical standards for selection listed above and I believe to the best of my knowledge that I can meet each of these standards without accommodation.

I certify that I have read and understand the technical standards for selection listed above and I believe to the best of my knowledge that I can meet each of these standards with reasonable accommodation. Should I feel I require accommodation to meet these standards, I will contact Academic Support Center to determine what accommodations may be available. I understand that if I am unable to meet these standards with or without accommodations, I will not be allowed to matriculate through the MSAT program.
