Dr. John K. Smith, PhD  
Associate Professor of History  
*Lehigh University*

With THE CHINESE EXCLUSION ACT, filmmakers Ric Burns and Li-Shin Yu tackle the dramatic yet untold story about a significant piece of U.S. history--the only federal legislation barring an entire group of immigrants based on nationality and race. Through powerful first-person interviews and illuminating archival images, the film highlights Chinese American resilience and resistance to racism. The film tells a deeply American story about issues of globalization, immigration, labor, and civil liberties that continue to dominate headlines today.
